

CHIPPED STACKS

48" X 59"

HELLO *Melly* DESIGNS

CHIPPED STACKS QUILT TUTORIAL

By Melanie Collette of Hello Melly Designs
For Personal Use Only, pattern not for resale or mass production.

FABRIC REQUIREMENTS

1 Layer Cake
1 yard contrast fabric
1/2 yard binding
3 1/4 yards backing

CUTTING INSTRUCTIONS

1. From Layer Cake, choose 33 prints and sub-cut each print in half into (65) 5" x 10" rectangles. Cut the contrast fabric into (7) 4" x WOF strips, then sub-cut into (64) 4" x 4" squares. Mark along the diagonal on the wrong side of the 4" squares.

QUILT INSTRUCTIONS

2. Arrange Layer Cake prints to determine final layout, with 5 columns and 13 rows. On the following steps, take care to maintain the order of the prints to preserve the layout.

3. On the first, third, and fifth columns, remove every other rectangle beginning with the second print down. Sew contrast squares to the bottom corner in a snowball (or sew and flip) method. To do so, place the squares in the bottom corners and sew along the marked lines. Trim, leaving a 1/4" seam allowance, and press towards contrast fabric.

4. On the second and fourth columns, remove every other rectangle beginning with the first print. Sew contrast squares to the TOP corners in a snowball (or sew and flip) method. To do so, place the squares in the top corners and sew along the marked lines. Trim, leaving a 1/4" seam allowance, and press towards contrast fabric.

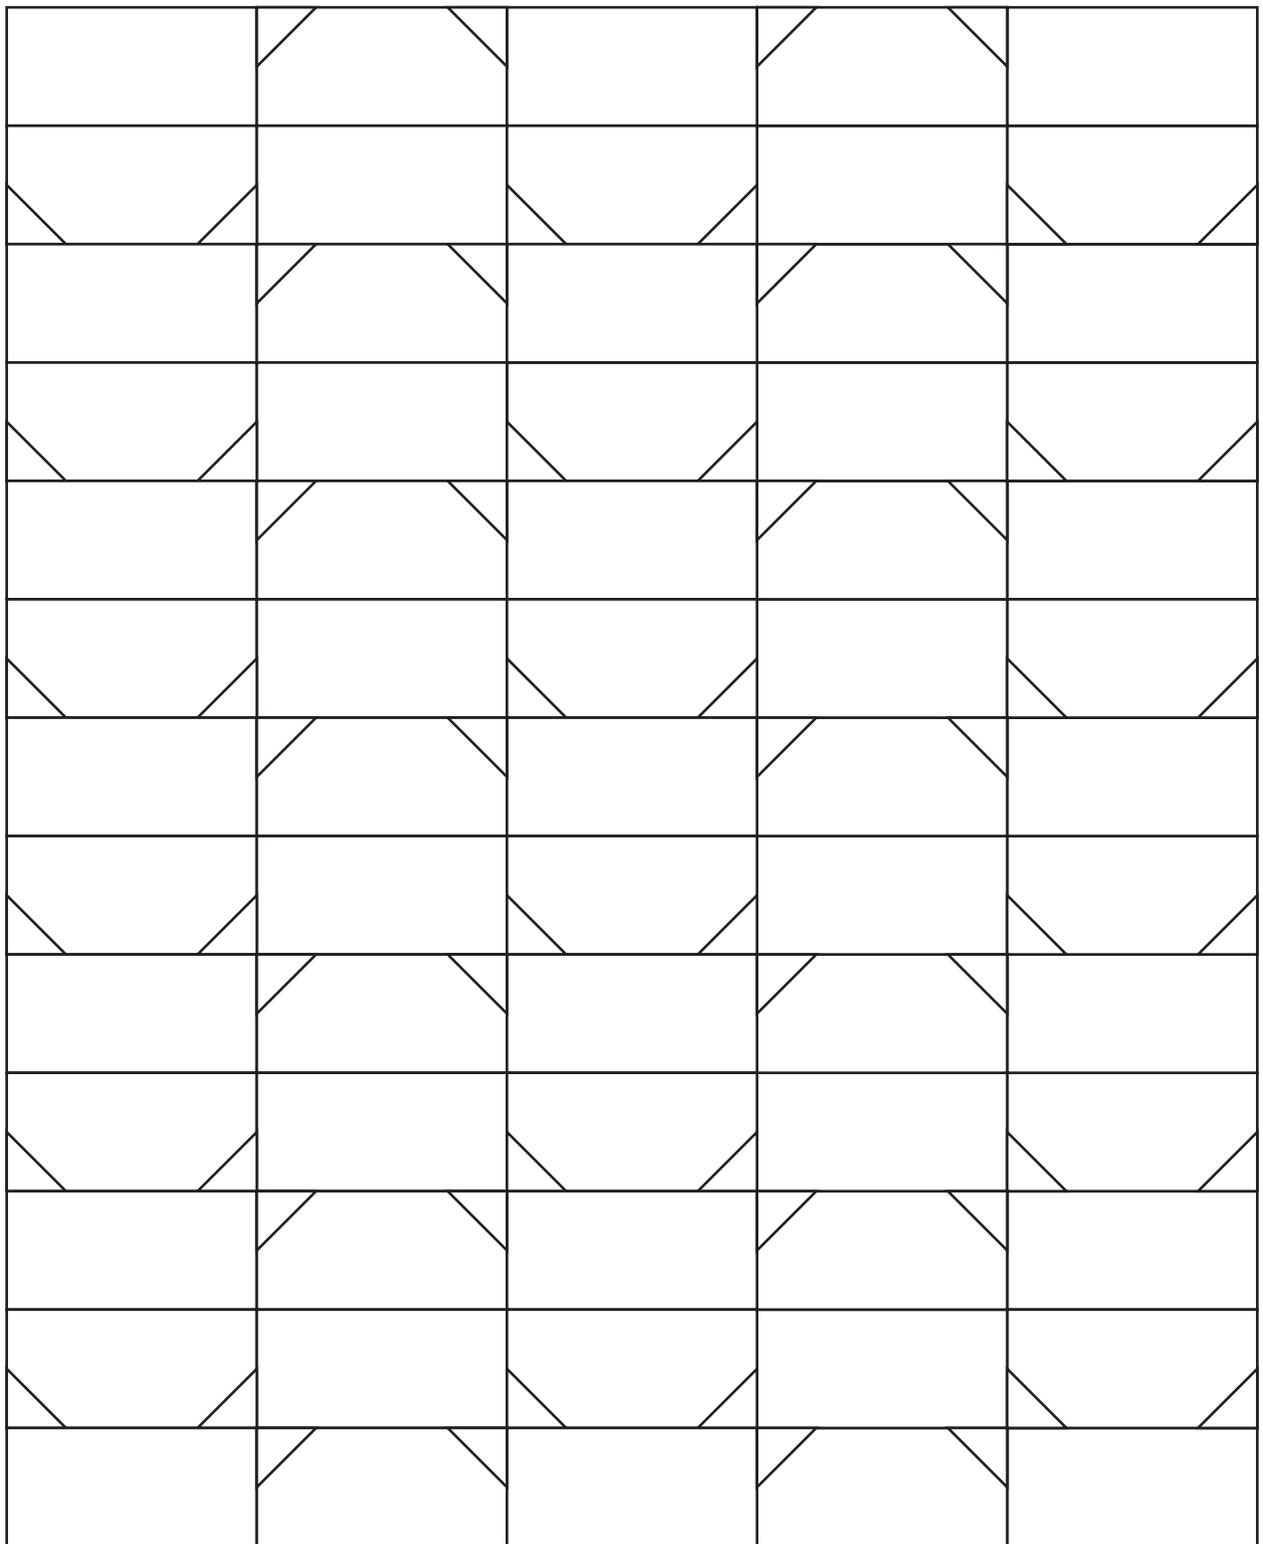

5. Return the snowballed blocks to the layout, and begin sewing rows. Press towards non-snowballed blocks.

6. Sew rows together, and press seams toward the bottom of the quilt.

7. Baste, quilt, and bind as desired.
